

SAMUEL WAHOME

Data Engineer | Backend Software Engineer | Cloud Solutions Engineer

Nairobi, Kenya | +254 714 202 582 | samuelndegwa96@gmail.com | linkedin.com/in/s-ndegwa | github.com/samueldennis

PROFESSIONAL SUMMARY

Data Engineer and Backend Software Engineer with 6+ years of experience designing scalable, cloud-native platforms, ETL pipelines, and secure APIs using Python, Django, SQL, AWS, Azure, and Google Cloud. Proven track record translating complex business requirements into reliable technical solutions that improve operational efficiency, strengthen decision-making, and support digital transformation across finance, education, nonprofit, and technology sectors.

TECHNICAL SKILLS

Languages	Python, SQL, JavaScript, HTML, CSS
Frameworks	Django, Django REST Framework, Flask, Node.js, Express.js, React
Data Engineering	Apache Spark, Apache Kafka, Apache Airflow, Pandas, NumPy, Power BI, ETL, Data Warehousing, Data Modeling
Cloud & DevOps	AWS, Microsoft Azure, Google Cloud Platform, Docker, Git, Linux
Databases	PostgreSQL, MySQL, MongoDB, SQLite, ClickHouse
Other Tools	Power BI, Excel, GitHub, Postman, Google Workspace

PROFESSIONAL EXPERIENCE

Data Engineer <i>CloudFactory</i>	Jun 2019 – Nov 2024
- Designed and maintained scalable ETL pipelines processing enterprise data for analytics and reporting. - Built SQL-based data models and interactive Power BI dashboards that turned operational data into business insights. - Automated repetitive reporting workflows with Python and improved data quality through validation, governance, and monitoring processes. - Implemented secure data management practices aligned with GDPR and HIPAA, and collaborated cross-functionally to translate operational requirements into scalable data solutions.	
Data Privacy Manager <i>KIPPRO Limited</i>	Dec 2024 – Present
- Developed organizational data privacy and governance policies and advised leadership on compliance and information security risk. - Promoted privacy-by-design practices across technology initiatives, working with technical teams to strengthen secure data management.	
Backend Developer <i>Andela</i>	Feb 2020 – Aug 2020
- Designed and implemented RESTful APIs using Node.js and Express; integrated the Safaricom Daraja API into production applications. - Built backend services supporting secure e-commerce functionality and applied automated testing practices using Mocha. - Worked within Agile engineering teams delivering production-ready software.	
Full Stack Engineer <i>Andela</i>	Feb 2019 – Feb 2020
- Led a five-member software engineering team; conducted code reviews and maintained software quality standards. - Developed responsive user interfaces using React and Material UI, and designed relational databases for enterprise applications.	

- Deployed applications on Microsoft Azure and collaborated with product managers and designers across the SDLC.

Senior Accountant

Sep 2025 – Present

Happy Day Academy

- Lead financial reporting and operational accounting, improving reporting efficiency through spreadsheet automation and standardized processes.
- Manage budgeting, reconciliations, and financial controls, delivering timely insights for institutional planning.

SELECTED PROJECTS

Life Church International Limuru Platform — Backend Lead

Python, Django REST Framework, PostgreSQL, Docker, JWT Authentication, REST APIs

- Designed and led backend development for a multi-module church management platform covering membership, visitor onboarding, ministries, HR management, authentication, and reporting.

Happy Day Academy Financial Dashboard

Google Sheets, Looker Studio, Excel

- Built a reporting solution giving management near real-time visibility into income, expenditure, and operational performance.

Python & Data Analytics Training

- Developed and delivered training programs covering Python, automation, and business intelligence for learners in Kenya and Nigeria.

EDUCATION

Bachelor of Science, Computer Science — University of the People

Bachelor of Arts, Sociology (Statistics) — Pwani University, Second Class Honours (Upper Division)

Certified Public Accountant (CPA) — KIST

CERTIFICATIONS

AWS Certified Cloud Practitioner • Google Associate Cloud Architect • ISC² Certified in Cybersecurity • McKinsey Forward Program • Data Science Web Applications with Streamlit & Python
